

## Daily Hospital Indemnity Insurance

Greater financial security in the event of hospitalisation.

[css.ch/hospitalisation](https://css.ch/hospitalisation)

### Your advantages

- A daily indemnity of up to CHF 350 per day
- No proof required of extra costs caused by accident or illness
- Daily cash benefit to be used at your discretion
- Double entitlement to benefits in the following cases:
  - hospitalisation in an intensive care unit
  - emergency hospitalisation while abroad
- Advance payments in the event of prolonged hospitalisation
- Lump sum for birth (10 times the amount of the daily indemnity)

### Save on premiums

- 10 % client discount for persons insured with CSS
- Attractive family premiums

### Sensible supplements

Daily Hospital Indemnity Insurance can be very easily combined with supplementary hospitalisation insurance. This allows you, for example, to considerably reduce any co-payment for hospitalisation in a semiprivate or private ward.

### Strong benefits that can be applied individually.

For each day spent in hospital, the Daily Hospital Indemnity Insurance pays – in the case of illness, from the third day and in the case of accident from the first day – a sum agreed in advance. This sum can be used according to your own individual needs and preferences either as a contribution toward the additional cost of a one or two-bed room, to cover the loss of salary or to hire a home help. The level of the premium is determined by your age at the date on which the contract begins. CSS will refrain from adjusting premiums on the basis of increasing age. Daily Hospital Indemnity Insurance offers five different options to meet your needs.
